

# Rethink Cloud Portal

White label Cloud Marketplace for 1-Tier CSPs

As one part of our Microsoft Cloud Solution Program Acceleration Services is Rethink – a white label cloud sales portal for resellers, service providers and ISVs focused on Microsoft Office 365, Azure and CRM Dynamics. It enables the configuration, provision and management of cloud technologies to accelerate the success as cloud solution provider. Providing access to a unified service management and automated provisioning, billing and customer management are key elements. Decreasing the complex challenges of managing various cloud services, the procurement process, the IT management and the support enables partners to manage the CSP subscription lifecycle from a single, automated portal.
